

LR DYNAMIC EVENTS AT THE FIRST ROUND OF ACI RACING WEEKEND

The LR Dynamic Events as Official Partner of Ligier Automotive in Italy for the Ligier JS2 R and Ligier JS P4 models, will show at the first event of the ACI Racing Weekend its structure, to introduce drivers and enthusiasts to the Ligier world. LR Dynamic Events, in fact, is working to include the "Ligier Italian Series" in the Italian motorsport scene in 2023.

ADRENALINE GOES ON STAGE IN MONZA

The Monza circuit, in addition to being the scene of the show of the first ACI Racing Weekend, will be the first track to host the static presentations of the LR Dynamic Events.

The structure coordinated by Luca Riccitelli, Manager of the Porsche Carrera Cup Italia and Director of the Porsche Sport Driving School Italia from 2002 to 2013, and director of the launch of the Lamborghini Huracán on a global scale as Instructor Director for the Lamborghini Accademia, will show the Ligier JS2 R and the Ligier JS P4 models to the "temple of speed". An opportunity for fans and drivers to get to know the world of Ligier and to discover the mechanical quality and performance guaranteed by the French cars.

LIGIER ITALIAN SERIES 2023

After this first static presentation in Monza, the LR Dynamic Events will follow the most important events of the ACI Racing Weekend to give the opportunity to fans all over Italy to get to know the Ligier JS2 R and Ligier JS P4 models

As already said at the beginning of 2022 by Luca Riccitelli himself, the main objective of the LR Dynamic Events is to establish the "Ligier Italian Series" next year, for this reason, in addition to the static presentations will also offer dynamic driving experiences with the dedicated track days #LigierExperience on the main national circuits, so as to bring gentlemen drivers and professionals to the next Ligier series.

INTERNATIONAL COMMITMENTS

Simone Riccitelli will be present with LR Dynamic Events at every ACI Racing Weekend: the young driver, Italian GT4 Sprint champion in 2019 and 2020 is a pillar of the structure and will explain the driving sensations of Ligier models. Simone Riccitelli is in fact engaged, in partnership with Nicola Neri, in the international Ligier European Series 2022 championship and thanks to the experience gained on these models can best illustrate the qualities and impressions given by French vehicles.
